

Lower the screen, **not your standards.**

Sunesta 
Making neighbors jealous **since 1981.**

As the pioneer in manufacturing customized retractable awnings and screens, Sunesta offers unmatched engineering for perfect performance. **Since 1981, we have led the industry in technological advances, and continue this tradition of engineering excellence in all our products.** Every component, feature and option is designed with this focus on innovation.

Sunesta's in-house experts partner with other component specialists and engineers around the world to ensure our awning and screen systems offer best-in-class technology. We invented the process of computer-aided awning and screen manufacturing, and our proprietary equipment and processes ensure precise customization with the industry's fastest turnaround time.

For you, this means your awnings and screens are perfectly crafted by our team of experts with attention to every last detail in a timely manner.

Look for the Sunesta Lifetime Service Label.

Only Sunesta Retractable Awnings and Screens are branded with a unique order number. We call it the SmartCode™ - your awning and screens individual I.D. number.

Through the SmartCode system, we keep your custom order details and specifications in our database, allowing us to answer product questions and provide updates regarding your individual awning or screen. We have a SmartCode on file for each awning and screen produced, for instant, customized service.

Note from the President

At Sunesta, our goal is to provide you with custom outdoor comfort for a lifetime of enjoyment.

Our custom manufacturing and variety of fabric choices allows us to fit almost any outdoor application.

With Sunesta, you have control of your screen and patio. You can completely retract or extend your screen down to the ground. Or, stop it anywhere in between.

Watching it go up is impressive.
But enough about your home value.

Sunesta 

Built by amazing **word of mouth.**

"We have a very long patio and so have 2 shades covering the patio. It is so nice to be able to sit outside and enjoy the backyard instead of being baked by the sun. **Looks great.** Love the remote operation."
- Patricia K.

"Love it. The quality, look, and fabric are excellent. The dealer and installer were awesome. Respectful, courteous, friendly, polite, and professional."
- Jane S.

"Our deck faces to the west so the sun is very intense. We seldom used our deck because of the extreme heat. We are **very excited** to enjoy the summer on our shaded deck."
- Sue A.

"We were very happy to see that they had so many available screen options for our patio. Many colors and textures gave us exactly what we wanted. Truly **Amazing.**"
- Tom D.

This homeowner chose a fabric that blends nicely with the look and feel of their home.

Sunesta® 

Complete and protect your
woman cave or man cave.

The Sentry gives you the ability to control your own living space. No matter if you are covering your windows, doors, patio or lanai, The Sentry is your solution...even for your garage.

For Insects

Keep insects out without giving up your view or airflow. Retract the screen and let mother nature in.

For Shade

Choose a solar mesh to block the sun, keep your view, control the wind, and reduce the temperature by 15 degrees.

For Weather

Raining? Cold? Choose a clear window for your Sentry Screen and enjoy your outdoor space all year round.

Sunesta

Providing outdoor comfort. The Sentry can be customized to fit your unique space with widths up to 26 feet and heights up to 16 feet. The Sentry is one system that has many uses. Choosing the fabric for your Sentry screen will allow you to customize your protection. Choose bug screen for insect protection, solar mesh for sun protection, opaque fabrics for privacy or room brightness control, or clear vinyl windows for rain and cold protection without losing your view. The Sentry has an exclusive fabric retention system that ensures your retractable screen will operate in any weather condition, as well as blocking the wind, and keeping unwanted pests out.

The sun is bright.
Fortunately, our engineers are brighter.

The Sentry's exclusive rail design features a floating track that seals to keep pests and the elements out while flexing to prevent binding under wind load.

The removable rail cover allow access for maintenance without the hassle of disassembling or dismounting the entire unit.

Standard Frame Colors:

Wireless remote controls and powered motor.

Continuous loop zipper. This prevents broken teeth which can cause binding in the operation.

3/4" weatherproof brush for a perfect seal.

Removable front cover allows direct access to motor and roller tube for easy service access.

We offer four different custom mounting styles:

- 1) **Surface Mount** attaches directly to the wall.
- 2) **Inside Mount** fits snugly between two walls.
- 3) **Distance Mount** attaches away from the wall.
- 4) **Recessed Mount** brackets attach inside an opening that is eventually closed.

Optional distance bracket

Optional recess bracket
